## SMART ALARM SELFIE

**BROCHURE**

**Technical Features**

### DIGITAL INPUTS

Number of alarm inputs

1 for movement

Number of command inputs

1 for switching on the device (Bluetooth)

### COMMUNICATION

State Message

1 daily with battery and sensor state indication

PIR Alarm Message

1 indication for motion alarm

Battery Alarm Message

1 indication for low battery alarm

### POWER SUPPLY

Voltage

3,6 Vcc (batteria litio)

Battery autonomy

2 years with PIR on max 4 hours a day and max 1 alarm a week

### ANTENNA

Connector

Internal helicoidal

Radiation

Omnidirectional

Power/Gain

25mW (+14dBm)

### OPERATING CONDITIONS

Operating Temperature

- 5 / +35 °C

Storage temperature

- 25 / +75 °C

Rel Humidity (no condensation)

< 95%

Protection Rating

IP 20

### MECHANICAL

Weight

0,025 Kg

Dimensions

90x55x35 mm without wall support

Mounting Wall

two mounting brackets included

SIGFOX based **SELFIE** Smart Home Alarm is a very simple motion sensor alarm that sends mail or SMS alarms through the SIGFOX Network to a mobile Smartphone; it is controlled by a web portal where the user can choose the notification system (e-mail or SMS).

The device is Li-battery operated, has 2 years autonomy and can easily fixed on the wall, no installer required.

SIGFOX network is a mobile radio network for IoT and allows to connect objects without using GSM modems and SIM cards.

The PIR sensor integrated into **SELFIE** detect motion inside the room using infrared waves. Bluetooth interface allows switching on and off the device.

SELFIE management is made trough Integra web platform and Selfie mobile app (IoS and Android versions) allowing:

- Device registration
- Device coupling with one or many mobile phones to receive alarms
- Definition of the frequency of keep alive messages (daily or weekly)

The SELFIE Smart Home Alarm device is SIGFOX certified, and it's compliant with electromagnetic EU directives, it doesn't interfere with other home appliances and has a CE mark.

The SELFIE Smart Home Alarm device can come with a bundle offer (device + web server access + 24 months of Sigfox connectivity), or can be sold as a single device.
